Do not transport any workers.
If yes: Add them to tracking spreadsheet. Check back in on worker when home to reassess needs.
Did 9-1-1 have to be called for this worker?
No
Is the worker at high risk of serious illness? (smoker, over 65, chronic illness)?
Can worker isolate in a room alone or with other people who also have fever and cough?
No
Yes: Add to tracking spreadsheet. Try to call them back daily to check in.
Yes.
No: Ask if you can talk to grower to help find a space. If no options available, call NCFHP.
Does worker need medications for fever or cough, beverages to hydrate, refills of prescriptions, or food?
No
Report:
• Report sick worker, any exposures you had, and actions taken to your agency.
• Report suspected COVID-19 case to local health department (tell worker you have to report by law).
• Ask worker if you can tell their grower in order to protect other workers and housemates. See tab with script for talking to grower.
If yes: Drop off supplies on porch to be collected after you are back in your car. Cash can be left on porch in a container. Wear gloves, put cash in a baggy. After cash is in baggy, remove gloves and discard them in another plastic bag. Wash hands and disinfect steering wheel back at the office. Cash needs to be disinfected - can check with bank. Add worker to spreadsheet and check back in with them by phone.
