HHS Launches COVID-19 Uninsured Program Portal, but Questions Remain about Considerations for FQHCs

- HRSA has launched a new COVID-19 Uninsured Program Portal, allowing health care providers who have conducted COVID-19 testing or provided treatment for uninsured COVID-19 individuals on or after February 4, 2020 to submit claims for reimbursement.

- Providers can access the portal at COVIDUninsuredClaim.HRSA.gov.

- Initial cautions: 1) we are unsure about how accessing this funding may affect other federal dollars and 2)the process requires a lot of personal information to be submitted about the uninsured patient which may present barriers to the patient or FQHC.

- Health centers should get set up in the system to receive claims, even if you do not end up submitting any, as getting set up is the first step in the process.
