NC DHHS Medicaid Expansion: Communications Research - Quantitative

November 2023

Quantitative Report

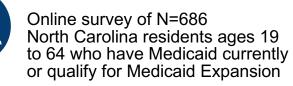

Methodology

Data collection conducted online from September 18 to October 6, 2023

Median survey length: 10 minutes

E 70/ ...

| | North Carolina Sub-Population | Completed Surveys (Unweighted) | 57% Have Medicaid coverage currently |
|---|--|--------------------------------------|---|
| The abbreviation "HMP" = Historically Marginalized Populations | Urban County Residents | n=516 | 43% do not have Medicaid |
| | Rural County Residents | n=164 | coverage currently (and |
| | Blacks/African Americans | n=233 | should qualify under Medicaid |
| | Hispanics/LatinX (Spanish language n=40) | n=166 | Expansion based on |
| | American Indians | n= 23 | household size and income) |

Results are weighted by gender and age, and race/ethnicity to targets set using CPS data for under \$50,000 household income and Medicaid or no insurance. A complete demographic profile is provided in the appendix of this report.

Throughout this report numbers are rounded to the nearest whole number and may not sum to 100%

Summary Observations: Health Motivations

- North Carolinians who qualify for Medicaid are at the margins when it comes to affording health care: nearly half have had to choose between paying a bill or getting health care in the past
- The most important motivation for having health insurance is to cover essential care:
 - being able to go to the doctor when you need to
 - prescription medications
 - coverage in the case of an emergency
 - not having to pay expensive medical bills
- Having this coverage leads people most often to feel a sense of gratitude, relief and greater security, most commonly leading to peace of mind
 - Powerful secondary values relate to attaining a healthier, longer and better life: greater motivation to care for oneself, longevity, and the ability to enjoy life fully

C DEPARTMENT OF IEALTH AND IUMAN SERVICES

Top reasons for having health insurance are the ability to go to the doctor when needed, prescription medications, coverage for emergencies and avoiding expensive medical bills

BASE: Total (n=686)

Q2. As you think about how it [IF HAVE HEALTH INSURANCE): feels / IF NO HEALTH INSURANCE: would feel] to have health insurance, how would you describe your feelings? Rank up to three from the list below.

Among those who don't have Medicaid currently, three quarters are familiar with Medicaid

Familiarity with Medicaid

Among those who do not currently have Medicaid

BASE: Those who don't have Medicaid currently (n=291) Q4. How familiar are you with Medicaid?

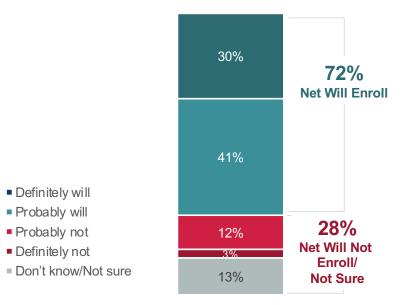

Seven in 10 say they will enroll in Medicaid if they are eligible when it goes into effect

Likelihood to Enroll in Medicaid if Eligible

Among those who don't have Medicaid currently

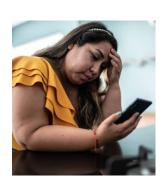

BASE: Those who don't have Medicaid currently (n=291)

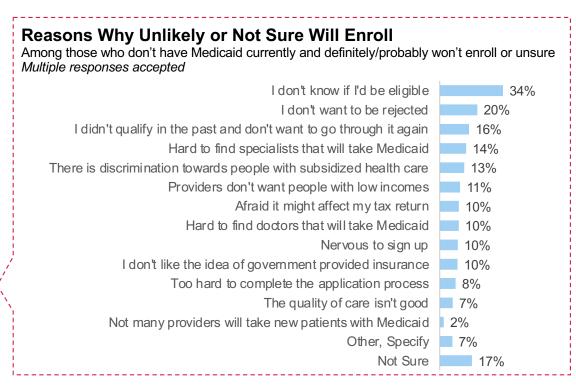

Q11. Do you think you will sign up to enroll in Medicaid if you find out that you are eligible to qualify when Medicaid expansion goes into effect in late 2023 or early 2024?

Among those unlikely or unsure about enrollment, concerns about eligibility and qualification are the most common reasons

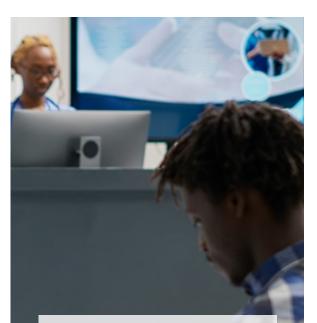

28% Net Will Not Enroll/ Not Sure

BASE: Those who don't have Medicaid currently AND say definitely/probably not enroll or not sure; (n=87) Q12. Why don't you think/are you not sure whether you will sign up for Medicaid coverage? Select all that apply

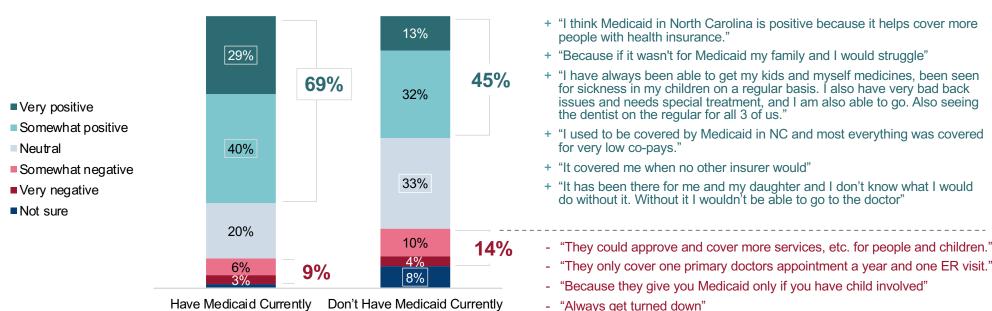

Summary Observations: Current Medicaid Perceptions and Experiences

- Positive impressions of Medicaid overshadow the negative; particularly among those currently covered by Medicaid
 - Positive impressions are often based on experience with past or current coverage "It covered me when no other insurer would"
 - Negative impressions stem from feeling the coverage is limited and difficulty in qualifying
- Fewer than one in 10 of those currently enrolled report negative experiences with Medicaid overall. While about one in 10 currently enrolled report some difficulty with the application and enrollment process, those who were turned down are much more likely to say the process was difficult
- Those with current Medicaid coverage identify several benefits that made them much more likely to enroll: little or no cost, yearly checkups, full coverage of doctor visits, and prescription coverage top the list.
- Those with Medicaid experience say the **best things** about it are being able to see a doctor when needed, get prescription medications, coverage in an emergency, while not having to pay expensive or surprise bills.
- Negative experiences or perceptions of Medicaid are centered on finding care as opposed to the quality of the care:
 - Over half with Medicaid have experienced difficulty finding providers and nearly two-thirds of those without Medicaid have heard about this issue
 - Fewer than two in ten question the quality of care

C DEPARTMENT OF EALTH AND UMAN SERVICES

Impressions of Medicaid are more positive than negative and particularly positive among those with coverage

Overall Impression of Medicaid in North Carolina

Q6A. Please explain why you have a [RESPONSE FROM Q6] impression of Medicaid in North Carolina. [OPEN END]

MEDICAID EXPANSION QUANTITATIVE RESEARCH REPORT

Reasons Why

Summary Observations: Message Testing

- All seven messages tested were well received; "winners" edged ahead only marginally
- While there is little consensus as to the "#1" message to motivate, at the top of the list by a slim margin are:
 - Health care is now within your reach. Because Medicaid pays the health care premium and for most services, there is little or no cost to you. Now you don't have to choose between your health and food on the table. You can get the care you need without going bankrupt from medical bills.
 - More Medicaid for more people. Now North Carolina is providing health care coverage to more adults at no cost through NC Medicaid—including those who have not qualified before and adults without children. Get covered, keep working, stay healthy, enroll today.
- Among Hispanic, Black, and Rural HMPs there is similarly broad appeal across messages and little consensus as to a single "winner"
- There is strong potential for word of mouth: over eight in 10 say they probably or definitely will share information about Medicaid Expansion with people they know

NC DEPARTMENT OF HEALTH AND HUMAN SERVICES

While there is little consensus as to the "winner," there is appeal across all messages tested with "Health Care is now within your reach" and "More Medicaid for more people" topping the list by a narrow margin

| 5 pt scale (1=No impact on whether I/they will apply, 5=Much more likely to apply) | Rate 4 | ■ Rate 5 = % | NET More Lik |
|---|--------|--------------|--------------|
| Health care is now within your reach . Because Medicaid pays the health care premium and for most services, there is little or no cost to you. Now you don't have to choose between your health and food on the table. You can get the care you need without going bankrupt from medical bills. | 24% | 43% | 66% |
| More Medicaid for more people. Now North Carolina is providing health care coverage to more adults at no cost through NC Medicaid—including those who have not qualified before and adults without children. Get covered, keep working, stay healthy, enroll today. | 25% | 41% | 66% |
| If you signed up for Medicaid and didn't qualify before, we are now covering more people. People can earn more and still qualify to get fully covered for doctor visits, yearly checkups, prescriptions and more at no or low cost to you. | 24% | 42% | 65% |
| Working hard should come with benefits. More people are now eligible for Medicaid health care coverage. Adults ages 19 to 64 years with higher incomes can now qualify. Apply today and know within 45 days. | 24% | 41% | 65% |
| You work hard and deserve to have health care coverage. More people are now eligible for Medicaid health benefits. Get covered, stay healthy, enroll today. | 23% | 42% | 65% |
| You may qualify for Medicaid health benefits—even if you didn't before. Adults ages 19 to 64 years with higher income can now qualify. Apply today and know within 45 days. | 25% | 40% | 65% |
| North Carolina Medicaid provides the same health care benefits as other comprehensive health insurance plans—without the premiums, high co-pays and out-of-pocket expenses. Apply today to see if you qualify for doctor's visits, yearly checkups, prescriptions, mental health services and more. More people qualify than ever before. | 25% | 39% | 63% |

Messaging Statement Impact on Applying for Medicaid

Q19. Listed below are a series of various descriptions about Medicaid insurance. For each, please rate how much it would [IF DON'T HAVE MEDICAID CURRENTLY: impact you applying for Medicaid / [IF DO HAVE MEDICAID CURRENTLY: impact people you know who might apply for Medicaid when Medicaid Expansion goes into effect].

ANALYSIS & MESSAGING

Keep it simple and direct: Focus on how Medicaid is for more people.

- Medicaid sells itself. People know it and want it AND they trust NCDHHS as an information source and conduit to services.
- The value proposition is personal peace of mind and health outcomes, not collective coverage: Access to comprehensive health care with no or little cost to you.
- We have the potential to enroll at least 70% of those eligible through communication about how Medicaid now covers more people and making the application process user friendly.
- The greatest barriers to enrollment: Knowing if you're eligible, past experience in being denied coverage, and wanting to avoid the difficulty of applying and being denied.
- Focus on Medicaid being for more people, make eligibility requirements clear, and ensure that information gathering is in one place and linked to as easy of an enrollment process as possible.
- Use Medicaid.nc.gov as the URL, as it links the product with the trusted provider and is the most efficient site for tracking and measurement. This will redirect to the current NCDHHS Medicaid home page.

C DEPARTMENT OF IEALTH AND IUMAN SERVICES

RESEARCH

North Carolinians know what Medicaid is, they want it, they trust NCDHHS to help them get it and they will feel relieved and grateful when they get it.

The most important thing to communicate: NC Medicaid now covers more people—adults without children and people who did not qualify before.

The feel: Comprehensive, quality program that puts me on solid ground and relieves my anxiety.

NC Medicaid for More People

North Carolina is now providing health care coverage to more adults at low or no cost to you through NC Medicaid—including those who haven't qualified before and adults without children. Get the same health care benefits as other comprehensive health care plans—without the premiums, high co-pays and expensive out-of-pocket expenses. Doctor's visits, yearly checkups, prescriptions, mental health services and more—health care is now within your reach. Reach out to see if you're eligible at Medicaid.nc.gov.
